Import, ISEKI
124 PS

An imported utility tractor that offers power at an unbeatable value

The TJW1233 is the standard imported tractor resulting from TYM's partnership with Iseki, one of Japan's largest and most established agricultural manufacturers. This utility tractor delivers the power you need without compromising quality.

1. Advanced Digital Instrument Panel

3. Green Mode

2. Main shift 8 range power shift

4. External hydraulic lever (8 port)

5. Dial switch lever

6. Tractor work lights

IMLT monitor

Use the monitor to collect and utilize data about your tractor or the task at hand.

Escort light

The work lamp stays on for an additional 30 seconds after turning off the engine to ensure safe disembarkation during night work.

3-point hitch with increased lift capacity

Take advantage of the enhanced lift capacity to tackle challenging tasks such as rotary tilling and weeding by effectively controlling the attachment's RPM using the PTO lever.

Ergonomic interior for operator comfort

The main control panel, designed specifically for driver comfort and productivity, makes combine operation effortless with key controls within easy reach. The digital instrument panel provides notifications and diagnostic information at a glance. Spacious seats and the flat floor, equipped with rubber mats, ensure safe, comfortable, and easy entry and exit from the operator cabin.

Electric/Hydro hitch control system

This tractor comes equipped with a Bosch electro-hydraulic control (EHC) system for the rear hitch. The system allows for faster and more accurate responses to changes in power and position, enabling operators to lift and lower the hitch gear to exacting specifications. The system is especially useful for row crop farming, allowing more precise tillage and boosting the quality of harvest.

Power steering with hydraulic tilt for optimal ergonomics

The power steering of this tractor comes with a tilt function that allows operators to move the steering vertically to find the ideal position for easier turning. Other features like adjustable suspension seating and the hydraulic axle configuration also minimize fatigue and contribute to a more comfortable driving experience.
