

T495

Compact, Series 4

45.3 hp

A powerfully versatile compact tractor that gives you the best of both worlds

Take on tough jobs in tight spaces with the T4049 (T495). This tractor seamlessly combines the top features of our compact and utility ranges, balancing high power output with exceptional maneuverability for outstanding results every time.

1. Cruise control switch (HST only)

3. 4-port rear hydraulic valve

5. PTO switch

2. Projection headlights

4. 3-range HST & 8F × 8R gear transmission

6. Digital instrument pane

Telescopic linkages and stabilizers

Telescopic linkages allow attachments to be easily connected and swapped out without needing input from the operator cabin. Stabilizers make it possible for the tractor to adapt to attachments of varying loads, without putting too much pressure on engine productivity.

Durable power steering and axle configuration

The heavy-duty 4WD front axle enables the tractor to lift heavy loads and tow large attachments while absorbing shock and maintaining stability. Powerful hydraulics support the power steering system, which uses a dual-action mechanism with a hydraulic cylinder and tandem-type hydraulic pump.

4-cylinder TYM diesel engine with high output

Equipped with a powerful, Stage V certified 4-cylinder engine, this tractor has an output comparable to utility tractors while maintaining the dimensions of a sub-compact tractor. The durable body and efficient engine come together to perform medium duty applications efficiently and productively.

3rd function hydraulic valve to enhance attachment capabilities

Allowing for versatile implement handling, this tractor comes ready with a 3rd function installation kit. It can maximize the use of a bucket implement with 4-in-1 functionality, including lifting, tilting, dumping and grappling

Superior operator amenities

Fully equipped with modern amenities to maximize operator comfort, this tractor is complete with a large cup holder. This feature is designed to promote productivity, keeping drivers hydrated, connected and alert during every job.

Easy maintenance and service

The hood of the tractor can be easily opened, allowing quick access to the engine and other systems for routine service and maintenance. This feature help increase the tractor's durability and performance over time.
