

F25

Compact, Series 2
24.5 hp

A compact tractor that delivers comfort and performance

The F25 is a mid-sized compact tractor that's both robust and efficient. Designed for lasting durability, this Series 2 tractor is ready to take on a range of applications with varying intensities.

1. New iconic hood

3. Ergonomic lever

5. High-capacity fuel tank

2. Comfortable suspension seat

4. 4 wheel drive

6. High visibility instrumental panel

Eco-friendly TYM 4-cylinder Stage-V engine

Equipped with a naturally aspirated engine designed and manufactured by TYM, the tractor is designed to be eco-friendly and fuel-efficient without compromising on performance.

Tilt steering wheel

The tilt steering wheel allows operators to adjust the position of the steering wheel for a more comfortable driving experience.

PTO on/off switch

Safety is a top priority. The PTO switch ensures secure operation of all tractor attachments.

LED work light (optional)

Full front and rear LED work lights facilitate safer operations, particularly in low visibility conditions such as rainy or dusty work environments, or during nighttime tasks.

Differential lock system and low turning angle

The differential lock system, activated with easily accessible levers, provides enhanced traction in slippery work environments, while a 52° turning angle makes operation in narrow areas much easier.

Water-separating fuel filter

The water-separating fuel filter prevents foreign substances from entering the fuel, ensuring better engine starting performance and preventing damage to the machine.
